Francisco 'Popoy' Pagayon is reintroducing "Probaton"—a patented truncheon made of rubber—to equip security frontliners after President Rodrigo Duterte asked the police to use batons as the "first line of defense".

INVENTOR REINTRODUCES 'PROBATON' FOR FRONTLINERS

the call of the president. Probaton, which is protected by patent, is ideal for our security frontliners, peace officers and village watchmen," says Pagayon, who is the president and chief executive of Filipino Inventors Society Producers Cooperative.

FISPC maintains a showroom along EDSA in Quezon City in partnership with the Department of Science and Technology's oneStore that showcases Filipino products and inventions.

President Duterte said in December that he wanted the police to use baton, made of hard rubber instead of

wood, as first line of defense. "When a person resists arrest and becomes violent, the first impulse of the police [officer] without a baton is to hold his gun. He might not draw it, but he holds his gun ready for action. If you have a baton, you hit just the hand or the body and that's painful. Maybe you can subdue the person resisting arrest or the criminal," the president was quoted as saying.

Security frontliners are using rattan at the moment, but the president said he would look for the budget to arm them with rubber batons.

Pagayon, an entrepreneur who likes to develop new tools, says he is willing to provide affordable but high-quality "Probaton" which he developed in 1978. After improving the design over the years and getting the patent in 1994,

Pagayon reintroduced the truncheon as "Probaton" which has armed thousands of policemen and village watchmen across the country.

Probaton, short for police reconnaissance operation baton, is one of the several inventions

that Pagayon is credited for. He says he registered Probaton after being informed that its design could be considered an invention.

Ang kanilang kuponan ay itinanghal na World Champion kamailan lamang matapos nilang talunin ang Burmese Ghouls sa grand finals ng naturang kompetisyon.

C-FoSH NOW EQUIPPED WITH VACUUM FREEZE DRYER

MSMEs all around the region take note as the CALABARZON Food Solutions Hub (C-FoSH) is now a proud home of a Vacuum Freeze Dryer (VFD). Through the technical and equipment assistance provided by DOST-CALABARZON,

C-FoSH will now be able to add freeze drying to its offerings. With this, MSMEs in the food industry within CALABARZON and even beyond can get a chance to produce innovative and quality vacuum freeze-dried

products.

The C-FoSH project is spearheaded by the Department of Trade and Industry (DTI) in partnership with Laguna State Polytechnic University (LSPU), Association of Laguna Food Processors (ALAFOP), and co-funded by DOST-CALABARZON.

Vacuum freeze-dried foods are popularly consumed by astronauts and the military, and are usually utilized for emergency food packs. More so, freeze drying is an innovative method that could also be of help to MSMEs in helping them assure quality yet easy packaging and transportation. Freeze drying is a drying

method best known to help retain the nutritional quality, taste, shape, and size of the food product. Vacuum freeze-dried foods help ensure consumers that they are getting real fruits and vegetables in their diets. The VFD method also removes water from the food variant ensuring that there is no room for bacterial growth. VFD's benefits in turn help food manufacturers in assuring quality and safe food packaging for their products.

The C-FoSH facility has been operational since 2017 and has been continuously evolving to better cater the needs of the MSME food industry in CALABARZON. Aside

Pagsubok

- 1) May mga panahong lahat nakabitin,
Lahat naghihintay ng resultang hiling,
Panahong ganito'y tiyempong alanganin,
Puno ng pangamba at alalahanin.
- 2) May ugali naman itong isang tao,
Kapag may problema'y ililipat ito,
Alam niyang ang lutas ay wala sa tiyempo,
Kaya gawa'y iba't nilihis ang akto.
- 3) May ibang ugali akong sasabihin,
Kapag nakabitin sa resultang hiling,
linom ng alak saka lulunurin
Ang mga pangambang di kayang lutasin.
- 4) Dito makikita ang lakas ng loob,
Saka kakayahang tumawid sa agos,
Ang taong may tapang paglaban ang sagot,
Ang taong mahina pagsuko't matakot.
- 5) Kung pag-aaralan mga bagay-bagay,
Malaking pagsubok itong ating buhay,
May nais ituro ang ating Lumalang,
Sa mga pagsubok ito idadaan.
- 6) Ang lahat ng tao ay may takdang misyon,
At dapat umaksyon paayon sa gayon,
Gamit ay talento at ang bagong dunong
Mula sa pagsubok na bigay ng Poon.
- 7) Tao'y sinusubok sa pakonti-konti,
Unti-unting dunong palapit sa mithi,
Anupa't sa tagal doon masusuri,
Malaki na palang bahagi'y nabawi.
- 8) Kaya ang marapat at tamang pagtanggap
Sa mga pagsubok ay magpasalamat,
Dito makakamit ang dunong na hanap
Nang tayo'y sumulong saka pumanatag.

from the VFD, C-FoSH also houses a variety of equipment which MSMEs could avail for lease in their food production and packaging needs. SECRETARY ANDANAR ON THE RECENT STATEMENT OF SENATE PRESIDENT VICENTE SOTTO III ON THE COVID-19 VACCINE COMMUNICATIONS

We sympathize with Senate President Vicente Sotto III's recent statement that there is an apparent apprehension among Filipinos to get vaccinated, which is why the PCOO has been intensifying its communications campaign to further educate and enlighten Filipinos on the government's vaccination program.

ANDANAR

The challenge of the lack of understanding in this regard remains a widespread problem. This gets further complicated with misinformation and disinformation by some individuals and groups who claim that vaccination is not an ideal and safe option for virus immunization. However, with clear and concise communications and information drives, knowledge and clarity on the matter will be achieved.

As the lead communications arm of the Duterte administration, we in the PCOO have been undertaking communications and information campaigns not only on the COVID-19 pandemic, but also on the upcoming rollout of our national vaccination program.

Through our Laging Handa Communications and Information Campaign, alongside different national and local agencies, we are able to communicate and enlighten Filipinos on important information related to the pandemic, government policies, and recovery programs, especially our vaccination program.

Furthermore, our Laging Handa website, press briefings, "Explain, Explain Explain: Pagdalaw" events, different Town Hall meetings, and Media Literacy trainings, among others, have been vital towards achieving our desired behaviour of getting at least 70% of our population inoculated to achieve herd immunity.

Different contents for social and traditional media platforms are being utilized and maximized to inform the Filipinos of our vaccination program, including how it will not only benefit themselves, but also their loved ones, and every other Filipino. We want to deliver to them the message that the vaccination program can save lives, revive hopes, and shape our collective future as a nation.

We will continue our intensified communications and information campaigns in order to inform every Filipino and assist the national government in the rollout and implementation of our national vaccination program so that we can heal, recover, and rise as one nation. ###

Pebrero 3, 2021 ay ibinahagi ni Mayor Corie Poblete ang isinagawang pamamahagi ng tulong pinansyal ng lokal na pamahalaan ng Silang sa ilang magsasaka sa kanilang bayan. Tumanggap ng halagang P3,000 bawat isa ang nasa may 65 corn grower farmers sa bayan. Bukod dito ay binigyan rin sila ng food subsidy kung saan nakatanggap sila ng mga itlog, bigas at manok na nagkakahalaga ng P2,000. Ang naturang programa ay naisakatuparan sa pamamagitan ng pagsuporta ng Department of Agriculture Region IV-A at Department of Agriculture Silang.

Ibinahagi ni Cavite Board Member Rainier Ambion ang mga larawan ng isinagawang swab testing para sa mga kapitan ng mga bayan na nasa ikawalong distrito sa lalawigan. "Ang Provincial Government of Cavite sa liderato ni Gov. Jon Vic Remulla ay nagsagawa ng swab test para sa mga kapitan ng mga bayan ng Alfonso, Magallanes, Bailen, Mendez at Tagaytay City," saad ni Ambion sa kaniyang post. Bayan ng Naic, naghigpit sa health protocol matapos makapagtala ng 26 panibagong covid-19 cases

Nitong Enero 30 ay nakapagtala ng 26 na panibagong kumpirmadong kaso ng coronavirus disease (COVID-19) ang bayan ng Naic, ayon sa lokal na pamahalaan nito.

Bilang ibayong pag-iingat sa mga mamamayan, inanunsiyo ni Naic Mayor Junio 'Jun' Dualan ang pansamantalang pagpapasara ng buong munisipyo mula Pebrero

1 hanggang 5 para sa isasagawang disinfection at sanitation.

"Dahil po sa pagkakaroon natin ng 26 positive cases sa araw na ito, ang inyo pong lingkod ay kasalukuyang nagbabalangkang ng mga plano o mga bagong guidelines na atin pong ipapatupad sa mga susunod na araw. Talaga pong nakakagulat ang biglaang pagkakaroon natin ng 26 na kaso sa isang araw sapagkat ilang linggo na po tayong halos walang positive case," pahayag ng alkalde sa kaniya paunang post.

Kasunod nito ay inanunsiyo niya sa hiwalay na pabatid ang pansamantalang pagpapatigil sa operasyon ng munisipyo.

"Bilang karagdagang pag-iingat at para sa kaligtasan ng mas nakararami, minabuti po ng inyong lingkod na pansamantalang isara

muna ang buong munisipyo mula ngayong araw na ito February 1, 2021 hanggang biyernes February 5, 2021," saad ni Dualan.

"Sa February 8, 2021 po muli magbubukas ang ating munisipyo at magreresome ng regular transactions," dagdag niya.

Kasunod nito ay ipinabatid din ng alkalde ang muling paghihigpit sa curfew, pagpapataw ng parusa sa mga hindi susunod sa pagsusuot ng face mask at face shield, at pagbabawal sa lahat ng uri ng mass gatherings tulad ng mga zumba and sporting events, community assembly, religious activities at iba pang uri ng gatherings tulad ng birthdays at reunions.

Ipapatupad ding muli sa Naic ang paghihigpit sa sakay ng bawat tricycle at pagsasara ng palengke at mga kalapit na establisimento nito tuwing Lunes, ayon pa rin sa pabatid ni Dualan. (GOCAVITE)

Sinasalanta tayo ng mga kalamidad na tulad ng bagyo. Dahil alam na natin ang kalimitang daan ng bagyo at kung ano ang lakas ay puwede na nating buuin ang mga planong sentralisado sa baw't rehiyon ng bansa. Ang mga gusali ng pamahalaan ay dapat na kongkreto sa mga lugar na laging dinadaan ng bagyo, mga kongkretong evacuation center sa baw't lalawigan na alam nating di kayang sirain ng hangin. Sa ganito ay makakatipid tayo sa gastos taon-taon at magiging madali ang pangangalaga sa taong-bayan.

Inventor reintroduces 'Probaton'... (from p. 1)

business over the years," Pagayon says.

"Probaton has been in use by our law enforcers and village watchmen for many years now. It passed the rigid inspection and review by the Philippine National Police Research and Development as well as the test and evaluation by the Philippine Army Materials Division. It is designed as the first line of defense for our peace officers, given its perfect length, weight, shape, quality of material, handle and grip," says Pagayon.

"It is meant as a defensive tool, but you can also swing it to shove attackers. It comes with a manual, personal training and demonstration on how to use it properly," he

says.

Pagayon says Probaton is ideal for frontliners who manage large crowd and implement social distancing. "Frontliners can use it to measure distance between persons and can guide them to observe social distancing. This would also calm the crowd who might panic at the sight of Armalite carried by law enforcers in full battle gear," he says.

"There were incidents in the past that arguments between frontliners and suspicious individuals resulted in violence and even deaths. With Probaton, this could be avoided. Law enforcers could also use it to defend themselves and knock

down an attacker without causing serious injuries to the body," he says.

"It is time to reintroduce Probaton because of the president's call for a better alternative to firearms as first line of defense. It looks better than rattan. In fact, it is a high-quality defense equipment. In dealing with unruly suspects, you can use this tool to knock down the attacker, but this would not break their bones because it is made of rubber," he says.

Probaton is the best-selling item among the products of Oral Educational Distributor Media Affairs Inc., the company established by Pagayon in 1980. The company sells school

equipment and general merchandise goods, which were improved and developed through Pagayon's "imagineering."

Pagayon, 75, did not finish high school and did not plan to become an inventor. He says he became one by accident. "When my company started dealing with the government, I developed innovative products for schools such as armchairs, whose desktops can be switched from left to right. I did not know it was an invention. My friends in

government told me I can secure patent for that. So I joined and registered," Pagayon says.

Aside from Probaton, Pagayon is also the inventor of Portasol—a multi-purpose solar thermal post-harvest speed dry tray, which saves space and ensures the high quality of products while drying grains or fish.

Another popular invention of Pagayon is the Ambidex convertible school chair, which can be adjusted for left or

right-handed use. He also invented Reverse Applied Retro Reflective Elements on Alphanumeric for vehicle license plates.

Recently, he developed new products such as solar-powered lighting systems with multi-purpose chargers, solar-powered street lamps, rescue boats with solar-powered lighting systems and electric firecrackers.

His latest project is Green-Grow gardening and reforestation tool kit—a tool box for "plantitos" and "plantitas" engaged in urban gardening.(PAPI)

Binisita ni Carmona Mayor Roy Loyola ang ginagawang Emergency Operations Center at Multi-purpose Building sa Barangay Maduya nitong Biyernes, Pebrero 5, 2021. Kasunod nito ay binisita rin ng alkalde ang Carmona Municipal Park at ang Davilan area sa Barangay Lantic upang kausapin ang mga security personnel sa nasabing mga lugar bilang paghahanda sa muling pagbubukas ng mga ito sa publiko simula Pebrero 10.

GenTri ordinance waives tricycle franchise renewal fee to aid TODA members

GENERAL TRIAS, Cavite -- The Sangguniang Panglungsod here recently passed an ordinance waiving the tricycle franchise renewal fee of P700 for year 2021. City Councilors Isagani L. Culanding and Florencio D. Ayos of the Committee on Transportation and Ways and Means authored

the ordinance to benefit thousands of tricycle driver members of the TODA. "All they have to do is to go to the City Hall grounds and queue for re-registration for tricycle franchise renewal para po

sa maayos na pagkakabit ng new sticker," Councilor Gani Culanding said. During the height of the pandemic last year, the transport sector is one of the most paralyzed sectors due to the restriction in the

movement of the people and prevent the further spread of the virus in accordance to IATF measures. Despite the ongoing crisis, transportation had slowly resumed with the establishment of protocols

for the operation of transportation with the tricycles being the first ones allowed to transport APOR (Authorized Persons Outside of Residence) within the locality for essential purposes of marketing, purchase of medicines, medical and financial transactions.

However, the City Government here headed by Mayor Antonio 'Ony' Ferrer with the able support of Congressman Luis 'Jonjon' Ferrer had been supportive to the members of the transport sector with the regular distribution of relief packs and granting of financial assistance.

In some cities, tricycle drivers were partnered with delivery companies like Foodpanda, Grabfood, Lalamove, and other movers to give them additional livelihood since income from tricycle operations at 50% capacity would not suffice for their family's daily expenses.

The local chief executive also declared in an interview before the year 2020 ended that the city government will include jeepney and tricycle drivers in its free COVID-19 vaccination program since they are frontliners as well. (Ruel Francisco with reports from Dennis Abrina/PIA)
