'PHILSYS CHECK', inilunsad ng Philippine Statistics Authority

Inilunsad kamakailan ng Philippine Statistics Authority (PSA) ang 'PhilSys Check' na naglalayong makatulong sa mga establisyemento upang mas mabilis na maberipika at matukoy ang pagkakakilanlan ng National ID cardholders.

13 bangko ang nakibahagi sa pilot test run ng PhilID QR Code Verification System (PQRCVS).

"We piloted PQRCVS (PhilID QR Code Verification system) in November 2021, and we are grateful to the 13 financial institutions that answered our call for pilot testing," pahayag ni Assistant National Statistician Fred Sollesta.

Bukod sa mas mabilis na pagberipika ng mga impormasyon, hindi na rin kakailanganin pa ng manual encoding dahil mas mabilis nang maisasalin ang mga personal data ng cardholders patungo sa sistema ng mga bangko.

"Through the pilot testing we made changes to the system to better serve its purpose. With more Filipinos receiving their PhilIDs, we work together to make government and private services more accessible for our constituents," dagdag pa ni Sollesta.

Sa kasalukuyan, tinatayang nasa 9.1 milyong PhilSys IDs na ang nai-deliver habang nasa 62 milyon pa ang kailangang maproseso.

Maaaring ma-aaccess ang PhilSys Check gamit ang link na nasa ibaba:

Mga mag-aaral sa kolehiyo kailangang mayroong PhilHealth coverage bago magbalik sa F2f classes-IATF

Itinakda ng Inter-Agency Task Force on Emerging Infectious Diseases (IATF) kamakailan ang pagmandato sa mga mag-aaral sa kolehiyo at pamantasan na magkaroon ng Philhealth coverage bago magbalik ang face-to-face classes.

Sa ulat ng 24 oras nitong Huwebes, binanggit na ang mga estudyanteng 20-anyos pababa ay dependent pa ng kanilang mga magulang na rehistrado sa PhilHealth ngunit ang mga 21-anyos pataas ay kinakailangang magpa-miyembro na sa PhilHealth.

"'Pag 21 and above, 'yan dapat primary members na sila," pahayag ni Dr. Shirley Domingo, PhilHealth vice president for corporate affairs.

Ang mg PhilHealth members na mayroong trabaho o kumikita ay nakatakdang magbayad ng buwanang kontribusyong nagkakahalaga ng P300.00.

Samantala, ang mga estudyanteng wala pang trabaho o ang mga walang kakayahang makabayad ng kanilang kontribusyon ay maaari namang magpatala bilang "indigent" kung saan magiging libre na ang kanilang kontribusyon.

Ayon naman sa National Union of Students of the Philippines (NUSP), hindi dapat umano ipasa ng gobyerno sa mga mag-aaral ang pasanin sa pagbabayad ng mga health insurance.

"Yung financial burden ay napapasa sa individual sa mga estudyante instead of the government answering the budget to provide free medical treatment if ever may nagpositive. Kukuha ka ng barangay certificate of indigency, may bayad din 'yun. Kukuha ka ng medical certificate, may bayad din 'yun. Kukuha

ka ng hospital bill na ipi-present mo saka 'yung form, siyempre, may mga bayad siya," ani Jandeil Roperos, pangulo ng NUSP.

"So instead na magiging accessible ang transition for face-to-face classes, mayroong ganitong additional requirements," dagdag pa nito.

Kaugnay nito, iginiit naman ng PhilHealth na sinusunod lamang nila ang utos ng DOH at CHED dahil para rin naman umano ito sa kapakanan ng mga estudyante na lalahok sa muling pagbubukas ng mga kolehiyo at pamantasan sa bansa.

PAGKA'T ANG PANAHON......

1. Pagka't ang panahon tuloy ang pagsapit,
Ang mga matanda ay maliligalig,
Hihina ang laman , titigas ang litid,
At ang alaala'y muling magbabalik.

2. Parang kahapon lang bahagyang napansin,
Itong mag-asawa ay magkakasupling,
Naglihi, pumintog, naghirap pa mandin,
Isang batang munti ang makakapiling.

3. Pagka't ang panahon tuloy ang pagdaloy,
Itong munting bata ay magpapatuloy,
Kumawag, dumapa na parang lalangoy,
Hanggang makaupo na tulad sa kasoy.

4. Pagka't ang panahon parang hinahabol,
Bata ay tumayo, lumakad, tumurol,
Nang maging binata'y hawak ang asarol
Upang ipakita ang trabaho't tanggol.

5. Pagka't ang panahon ay napakabilis,
Nakapag-asawa't may sanggol nang kilik,
Bata ay lumaki at saka umalis,
Binata na itong asawa ang ibig.

6. Una ay ang anak, ngayon naman apo,
Kaya tuwang-tuwa ang Lola at Lolo,
Subali't panahon laging nagbabago,
Ngayon nga'y kulubot na ang noo't braso.

7. Pagka't ang panahon tuloy ang pagsapit
At pagdating nito'y hatid ang ligalig,
Kung sana ay walang nalasap na tamis,
Sana ay lungkot lang ang palaging kamit.

8. Subali't panahon patuloy ang langoy,
Sa taong maayos, ligaya'y patuloy,
Talo yaong lahat ng paklang susuloy*,
At ani ay bungang masarap ang daloy.

"while the fight against the Covid-19 crisis is the city government's top priority, this should not hinder the administration's desire to accomplish other programs and projects aimed at providing for the welfare of the citizens.."

The building, which is part of the legacy projects of Mayor Maliksi's administration, is designed to be an 'Eco-Friendly Green Building' because of the green architectural principles, such as the solar panels installed to power its lighting and other electrical fixtures. A rainwater harvesting system stored in tanks can supply the building occupants for at least four days.

Also, a sewage treatment plant ensures water wastes are safe and treated before it is released into the sewerage, while a material recovery facility contributes to the solid waste management and recycling as well.

All these features aim to lessen its carbon footprint from its daily operations.

The government building is also considered a "Smart Building" because of its computer-based building management and maintenance system.

The system could control all lighting, the alarm system, its elevator system, 500 CCTV surveillance cameras, and other facilities to give access to persons with disabilities.

Trash traps, cleanup drives stop 800+ tons of wastes from draining to Manila Bay

More than 800 tons of trash coming from the provinces of Cavite, Laguna, Batangas and Rizal were kept from finally draining to Manila Bay through the trash traps installed along the waterways and the regular cleanup activities of the river rangers on the first quarter of 2022, per report of the Manila Bay Site Coordinating and Management Office (MBSCMO)-4.

About 600 tons of the said wastes were collected by the river rangers while the remaining volume were gathered from the trash traps. The monitoring of installed trash traps and the conduct of cleanup drives by river rangers are part of the Manila Bay Rehabilitation Program of the Department of Environment and Natural Resources (DENR) CALABARZON.

Most of the said wastes were from the province of Cavite with a total volume of 634 tons, a whopping 72% of the overall amount of waste collected for the quarter. Rizal province was distant second with 120 tons total waste collection, followed by Batangas and Laguna with 68 tons and 56 tons, respectively.

465 river rangers across the said provinces were hired and mobilized during the said period: 198 in Cavite being the most populous province of the four and being the area largely covered by the Manila Bay Region, 123 in Laguna, 80 in Rizal, and 51 in Batangas. The river rangers were able to clean an 80 km stretch along the identified river systems, shorelines, and waterbodies in the region. On the other hand, 82 of the 97 trash traps installed all over the region were able to collect solid waste during the quarter: 36 in Cavite, 19 in Rizal, 17 in Laguna, and 10 in Batangas.

The collected solid wastes were transported to various sanitary landfills and materials recovery facilities through the assistance of the concerned local government units.

For this year, DENR CALABARZON through its provincial offices will install 24 more trash traps at the identified waterways in the four provinces covering the Manila Bay Region. Moreover, the office will continue to hire river rangers who will regularly conduct cleanup activities along the various tributaries of the bay within the region.

The installation of trash traps and the hiring and mobilization of river rangers are under Phase 1 (Cleanup/Water Quality Improvement) of the Manila Bay Rehabilitation Program which was launched in January 2019 during the administration of former DENR Secretary Roy A. Cimatu. The said activities were coupled with information and awareness drives among the affected residents.

DENR CALABARZON continues to call on the public to religiously practice proper waste segregation and disposal to lessen the waste leading to Manila Bay and to the ocean.###

"We are now demanding the wage board to do its duty to set minimum wages that can really meet the basic needs of workers and their families in Region 4-A," panawagan ni TUCP President Raymond Mendoza.

"The current P303.00, P317.00, P373.00, and P400.00 daily minimum wages in Calabarzon, which are already low, in real terms is only P267.91, P277.22, P329.80, and P353.05, respectively. How can workers and their families cope with skyrocketing prices of foods and commodities with such ridiculously low wages?" pagpapatuloy nito.

Dagdag pa ni Mendoza, tumaas ng 4% ang inflation rate sa bansa nitong Marso 2022 na isa sa mga dahilan ng pagsipa ng "cost-of-living".

Kaugnay nito, inaasahang tataas pa ang inflation rate sa 5.1% ngayong taon, ayon sa Bangko Sentral ng Pilipinas (BSP).(GOCAVITE)
