Ang Tama

SM Foundation and Fast Retailing Foundation join hands to protect coastal villages

FR Foundation Secretary-General Yoshio Ishida, (center) and SM Foundation AVP for Livelihood and Outreach Programs Cristie Angeles (far right, front) lead the Grow Trees Community launch in Pampanga.

The Grow Trees Community project in Macabebe, Pampanga is the second site for the joint reforestation initiative of SM Foundation and Fast Retailing Foundation.

Mario Flores Canilao thought his world was about to end when Typhoon Glenda (International: Rammasun) struck his village in the province of Pampanga in July 2014 and ravaged a fishing pond where he derived his main source of livelihood.

“Yun ang pinakamalupit. Akala ko nga natapos na ang mundo sa akin noon (I thought life was too harsh. I thought that was the end of my world),” Mr. Canilao, a fisherman by trade, recalled.

Despite the blow he was dealt, he mustered the will and determination to move forward. Soon, the Department of Environment and Natural Resources enlisted his help to plant Bakawan or mangrove trees.

As the president

of the Samahang Makakalikasan ng Pampanga, Inc. (SAMAPA), Mr. Canilao has been working tirelessly with the government and the private sector in the last decade to help build a coastal forest for the natural protection of their community in the municipality of Macabebe, to avoid pitfalls in the wake of another storm like Typhoon Glenda.

This year, he is delighted to know that SM Foundation, the social good arm of SM and Fast Retailing Foundation, a general incorporated foundation in Japan, are providing extensive support by planting Bakawan trees in his coastal community under their joint ‘Grow Trees Community’ project. This reforestation initiative

is set to introduce at

least 100,000 mangrove trees of the Bakawan babae and lalaki species in Barangay Consuelo in the municipality of Macabebe, the second site after the project formally launched in Batangas last September 27.

“Malaking tulong itong mangroves para sa akin, para sa pamilya ko at saaking mga kababaryo n amagkaroon din po ng hanapbuhay. Sa darating na mga henerasyon, makakatulong ang mga bakawan sa dipensa sa malalakas na alon at hangin (Mangroves are a huge help not just to my family but to my fellow villagers, also in supporting livelihood. The bakawan will help the next generation gain protection against strong winds and waves),” Mr. Canilao said.

DSWD, NCIP vow to make...

(from p. 1)

Tulfo said there are existing government programs that can help the poor IPs in bringing them back to their provinces and providing them with their own livelihood there.

Tulfo cited the Balik Probinsya, Bagong Pag-asa (BP2) and the DSWD's Kapit-Bisig Laban sa Kahirapan-Comprehensive and Integrated Delivery of Social Services (KALAHI-CIDSS).

"Ang unang gagawin natin this December ay (The first thing we will do this December is) we will start registering them sa mga (in) local civil registrars para sila ay magkaroon ng (so they can have their own) birth certificates," he told the senators, noting that certain personal documents like a birth certificate would be needed for a person to be part of various government programs.

Tulfo cited another program for Badjaos which also includes a comprehensive program for street children where PHP34.9 million was allotted by the agency this year.

"But this is just for rescue. What they really want is a concrete solution at pangmatagalan na bibigyan sila ng livelihood pagdating sa kanilang tirahan (and lasting wherein they will be given livelihood when they arrive at their homes). This administration will make sure that they will be given livelihood para hindi na sila pabalik-balik (so, they will not go back and forth anymore)," he said. Meanwhile, NCIP

Chairperson Allen Capuyan suggested replicating Davao City's approach in welcoming the IPs during December.

"Ang ginawa ng City Government of Davao tuwing December, iniipon sila sa isang lugar. Lahat ng gustong tumulong, mga sponsors ay pupunta doon. While ang ating brothers and sisters ay nasa isang gym, ay gagawa sila ng cultural presentations. Yan ang isang nakita ko na pwede nating gawin (What the City Government of Davao is doing by December, they gather them in a place. All who want to help, the sponsors will go there. While our brothers and sisters are in a gym, they will do cultural presentations. That is what I think we can do)," Capuyan said.

Senator Robin Padilla was asking the two agencies to break the endless cycle of Badjaos and other IP tribe members who are forced to travel to Metro Manila during Christmas.

Padilla, who chairs the Senate Committee on Cultural Communities and Muslim Affairs, said

he is ready to coordinate with the agencies to help the IPs.

"Tuwing dadating ang Kapaskuhan, nakikita po natin ang ating mga katutubo sa iba't ibang kalsada kasama ang kanilang mga anak lalo ang mga kapatid kong Badjao. Kukunin sila, tapos ibabalik sa lugar nila, babalik din sila dito (When Christmas approaches, we see IPs such as our Badjao brethren on the streets, with their children. Our authorities would rescue them from the streets and send them to their home provinces, but they will keep coming back)," he said. "Meron pong mga programa ang DSWD tulad ng livelihood program. Ito ang sa akin lang mapaglarong isip. Pwede po kaya na turuan na lang sila kung paano mamasko nang hindi delikado, parang gawin ba nating livelihood yan (Our DSWD has livelihood programs. This is a suggestion - can we teach them to earn a living without having to risk their lives?)" he added. (PNA)

grounds for fishes and shellfishes,” Cristie S. Angeles, SM Foundation Assistant Vice President for Livelihood and Outreach Programs said.

“A well-preserved mangrove forest can provide an ecosystem of interconnected benefits promoting biodiversity in marine life and a reserve of valuable resources. Beyond this, the collective efforts of the community are vital to the preservation of the environment. As SM enables the growth of so many communities, we are also enabling these communities to lead the preservation of the environment in their areas,” Ms. Angeles added.

“We are particularly drawn to this project which is a first in terms of our partnerships here in the country. Mangrove trees have an enormous capacity not only to absorb greenhouse gases making them ideal in bringing about climate benefits but they also enrich the biodiversity as well. After we can confirm the success of this Pampanga project, we are looking forward to pursue more of these types of projects in the near future in collaboration with our partner, SM Foundation,” Mr. Yoshio Ishida, Secretary-General of FR Foundation said.

As part of their community engagement strategy and to sustain the project, the proponents are tapping the expertise of the community and partner agencies in monitoring the propagules to ensure their growth as mature trees.

“What’s good about this project is it goes beyond enriching the environment. We have an opportunity here to boost livelihood in the community while at the same time, helping improve the disaster risk reduction capabilities of the locality,” Ms. Angeles said.

The full impact of the project will all go to the community as

they look after the trees moving forward.

“Maraming benepisyo gaya ng sa air pollution na humihigop at nagbubugayan ng mga magagandang hangin. Malaking bagay po ang bakawan sa pamumuhay ng mga taga barangay (Mangroves have many benefits like producing cleaner air while reducing air pollution. The bakawan is a big help to the livelihood of community),” Mr. Canilao said.

Apart from the two foundations, the Grow Trees Community initiative harnesses partnerships with SM Supermalls, various government agencies, as well as volunteers from the chosen provinces. These include the Department of Environment and Natural Resources, Department of Social Welfare and Development, Department of Agriculture, DA-BFAR (Bureau of Fisheries and Aquatic Resources), Technical Education and Skills Development Authority, Department of Trade and Industry, Department of Science and Technology, Philippine National Police, the local government of Macabebe and Peoples’ Organizations (POs) such as SAMAPA.

The Grow Trees Community is in support of the SM Green Movement that aims to improve the quality of life of communities through sustainable solutions to promote a green planet, green living and a green culture.

FR Foundation focuses on promoting research designed to help make the world a better place, spurring technological development, nurturing human resources, and supporting socially vulnerable individuals or groups.
