SSS offers existing Emergency Loan Program to members affected by Tropical Storm Maymay, Habagat

QUEZON CITY, 17 August 2026 – The Social Security System (SSS) announced that members affected by Tropical Storm Maymay and the enhanced Southwest Monsoon (Habagat) may avail themselves of the existing Emergency Loan Program (ELP) to help address their financial needs arising from the calamity.

SSS President and Chief Executive Officer Robert Joseph M. de Claro said the ELP remains available to qualified members nationwide and serves as a readily accessible source

of financial assistance for those experiencing financial hardship due to calamities and other emergency situations.

“The ELP is part of SSS’ continuing commitment to provide immediate financial relief to members affected by unforeseen events. Through the ELP, qualified members affected by Tropical Storm Maymay and the enhanced Southwest Monsoon may access much-needed financial assistance under more flexible eligibility requirements,” de Claro said.

“Under the ELP,

which has been in effect since 01 May 2026, the required number of monthly contributions has been reduced from 36 to 18, provided that the member has at least six posted contributions in the last 12 months,” de Claro said.

He added that self-employed, voluntary, non-working spouse, and land-based Overseas Filipino Worker (OFW) members must have at least six-monthly contributions under their current membership type before the month of loan application.

Other eligibility requirements are as follows:

*Under 65 years old at the time of loan application;

*Have a valid Philippine home address on SSS records;

*Have an updated contact information in the SSS database;

*Have no past-due emergency, calamity,

salary, Educational Assistance Loan, or other short-term or long-term member loans;

*Have no outstanding restructured loan;

*Have not been disqualified due to fraud

committed against the SSS;

*Have not been granted any final benefit like retirement or permanent total disability benefits; and

*Have an active disbursement account enrolled through the Disbursement Account Enrollment Module (DAEM) in the My.SSS Portal.

Qualified members may borrow up to ₱20,000 at an interest rate as low as 7% per annum. The loan is payable over 30 months, inclusive of a six-month moratorium period.

“Members are not required to make

monthly amortization payments during the first six months from the date of loan approval. No penalties will be imposed during this period. Regular monthly amortization payments will begin in the seventh month,” de Claro explained.

De Claro added that members affected by the tropical cyclone may also apply for an SSS salary loan at the same time, subject to the eligibility requirements.

Members may apply online for both the ELP and the salary loan through the My.SSS Portal at [#](http://www.sss.gov.ph)

SSS continues support to the local market as part of nation building while exploring international investments to balance portfolio

QUEZON CITY, 12 August 2026 – The Social Security System (SSS) announced today its plan to expand its investment portfolio in foreign markets while continuing to actively participate in the domestic capital markets, as part of its strategy to diversify assets, enhance returns, and strengthen the long-term sustainability of the pension fund.

SSS President and Chief Executive Officer Robert Joseph M. de Claro said the SSS’ improved financial position provides greater capacity to pursue investment opportunities while continuing to contribute to nation-building through investments in the domestic market.

“We are very

conservative, but at the same time, we are also in a very good position now because of our surplus, that for the first time, we have an opportunity to help in nation-building,” de Claro said.

As of 30 June 2026, SSS had ₱1.27 trillion in consolidated investments, distributed across various asset classes in the domestic market. These include ₱629.05 billion in government securities, ₱179.44 billion in equities, ₱154.56 billion in property, ₱151.90 billion in member loans, and ₱96.34 billion in corporate notes and bonds, among others.

The diversified portfolio generated ₱27.16 billion in actual investment income as of 30 June

2026, equivalent to an annualized return on investment of 4.53 percent. The figures exclude realized gains from the sale of equity securities classified as fair value through other comprehensive income (FVTOCI).

SSS remains an active institutional investor in the Philippine capital market through investments in equities, government securities, and other financial instruments allowed under its investment policies. Its exploration of international investments is intended to complement, not replace, its existing domestic investments, providing greater diversification across markets and asset classes.

The planned overseas expansion will allow SSS to

explore additional investment opportunities while maintaining its role in supporting the local capital market.

He emphasized that exploring overseas investments does not mean reducing SSS’ participation in the Philippine market. Rather, the initiative is intended to complement its existing domestic investments by providing greater diversification across markets and asset classes.

SSS aims to grow its reserve fund to ₱2 trillion by 2030, supporting its capacity to provide meaningful and sustainable social security protection to current and future generations of members and pensioners.

PHILHEALTH RISES TOGETHER WITH GLOBAL AND STRATEGIC PARTNERS FOR THE COORDINATED SUCCESS OF UNIVERSAL HEALTH CARE UNDER THE RISE30 MISSION

The Department of Health (DOH), and the Philippine Health Insurance Corporation (PhilHealth) presented a 16-month runway of shared reforms aimed at advancing not only PhilHealth's RISE30 Mission, but also improving access, equity, and efficiency in Universal Health Care (UHC) delivery across the Philippines.

More than 100 participants, including global development partners, financial institutions, academe, foundations, civil society organizations, other government oversight agencies, and stakeholders, as well as PhilHealth officers and technical staff, convened today at the Asian Development Bank (ADB) Headquarters to align resources and technical expertise behind UHC reforms.

Co-sponsored by the ADB through its Build Universal Health Coverage (BUHC) Project, the 2026 PhilHealth Partners' Forum was led by DOH Acting Secretary, Dr. Edwin M. Mercado, Acting PhilHealth President and CEO, Dr. Beverly Lorraine C. Ho, and ADB Country Director Andrew Jeffries. The forum facilitated direct alignment of partner resources and expertise with the sector's Shared Agenda and PhilHealth's multi-year Technical Assistance (TA) Agenda.

The program also featured a tribute honoring the coordinated success of PhilHealth and its partners over the past 18 months, recognizing the collective effort behind the gains made in advancing UHC reforms. Primary Care Champion and Department of Finance Secretary, Frederick D. Go, expressed his support for, and confidence in the agencies' shared agenda. ADB Director of the Human and Social Development Sector Office, and former PhilHealth President and CEO, Dr. Eduardo Banzon, commended the progress PhilHealth has made over the past year. PhilHealth recognizes both leaders as pillars of support of the Build UHC Program, whose continued partnership has been instrumental in driving the impact and reach of PhilHealth's programs nationwide. Looking ahead,

RISE TOGETHER

Coordinating our efforts to achieve Universal Health Care

PhilHealth remains fully committed to building this ecosystem of support alongside the Department of Health. With primary care as the backbone of UHC, the TA Agenda continues to build on the strong collaboration in long-term planning and further expands the partner network in support of ongoing UHC reforms. To ensure the success of these outcomes, PhilHealth laid down the pathway for stakeholders to provide their continued support and active engagement toward this shared, coordinated success.

Home of frozen favorites

People value convenience. As daily life becomes busier, the demand for easy, practical meal options continues to rise. Not only do these products save time and money, but their longer shelf life also helps reduce food waste by allowing consumers to store and enjoy them over time.

In 2020, Sahlee Quizon from Sta. Cruz, Laguna, started her frozen food business with her first product: boneless milkfish (bangus). Known for its countless tiny bones, the fish had once been the cause of a choking incident that nearly cost Sahlee her life.

After that incident, she promised herself that one day she would enjoy bangus without fearing its bones. That promise led her to create her version of boneless bangus. Sahlee started her business while still working as a company employee. As demand grew, she left her job to focus on her venture. What started as a personal solution to a struggle eventually became her bread and butter.

After a decade of working for different companies, Sahlee discovered that nothing compares to the freedom of running her own business and the flexible schedule that comes with it.

“Pagdating kasi sa negosyo, umaga pa lang mayroon ka ng pera; kumbaga hindi mo na kailangan hintayin ang kinsenas at katapusan, basta masipag ka, araw-araw ka kikita.” (Unlike in a regular job where you wait for payday, your earnings in business depend on your effort. Being hardworking and consistent can make more profit every day).

To reach more customers, she also posts her products online. With today’s growing shift toward digitalization, her online presence has helped her connect with a wider market, including resellers.

Currently, she has four resellers that help distribute her products. Over time, she expanded beyond boneless bangus and began offering other homemade products, including tocino, longganisa, shanghai, embutido, chicken inasal, barbecue, and siomai. Exploring other products became easier for her since her mother’s business was also in the frozen food industry.

As her business grew, competition became inevitable. However, she remains unfazed, believing that success comes down to those who produce better quality products. Every day, she mostly uses up to 60 kilos of meat and 20 kilos of bangus. Although she chooses to handle it by herself to ensure that the quality and taste remain consistent.

For Sahlee, the recipe for a good business is a combination of hard work and perseverance.

“Sa simula, may mga pagkakataon na hindi lahat ng produkto ay maibebenta sa isang araw, pero darating yung panahon na babalik-balikan ito ng customers mo.” (There will be slow days, but there will come a time when people will keep coming back for more; until that happens, keep grinding),” she stated.

Financial support from the bank

In 2013, she became a client of CARD MRI Rizal Bank Inc. (CARD RBI), a microfinance-oriented rural bank under CARD Mutually Reinforcing Institutions (CARD MRI). For nearly 13 years, she has relied on CARD RBI for both her family and business needs. She took an educational loan for her children, a housing loan, and additional capital to support the start of her business in 2020.

Currently, she has an active loan of PHP 95,000.00, which she uses as additional capital for her venture.

Through her business, she has sent all five of her children to school, with three now professionals and the two youngest still in college, pursuing their respective dreams.

To this day, she continues to post her products online as part of her marketing strategy. Looking ahead, she remains hopeful and determined to grow her business further, aiming to reach more customers and create more opportunities for expansion.

One of Sahlee Quizon's most popular products is her homemade siomai, which has become a favorite among many of her customers.
